The Government of Canada is now providing funding so that potential suppliers can access electronic documentation relating to federal opportunities on the Government Electronic Tendering Service (GETS) free of charge. GETS supports the federal government's sustainable development practices as it encourages moving procurement from a paper-based to an expanded electronic service.

GC Documents may not be redistributed, in whole or in part, in any form or by any means without the prior written permission of the Minister of the Department of Public Works and Government Services, except to the extent permitted by the *Copyright Act*.
